TRUST CHAIRMAN FEES:

MOTION: Moved by Brian McMullen, seconded by Robert Harris that the chairman's fees remain the same at \$400 per annum. **CARRIED**

ADVISERS: Moved by Neil Kennedy, seconded by Anne Kennedy that Kevin Duncan and Tony Hall be appointed as advisers for the ABWUA. **CARRIED**

NSW GOV. GABAG: The ABWUA four representatives on the GABAG are Geoff Nicholson, Anne Kennedy, David Officer and Sonya Marshall. These representatives are appointed by the Minister and not elected at the AGM.

GENERAL BUSINESS: Licenses for water wastage – According to Robert Harris this will not happen until after GABSI (iii) has been completed.

A break was then called to have lunch and a walk around, with the meeting to resume in a half hour.

STEVE CHEAL: Steve addressed the meeting and informed us that seven projects were to be done this year. Plugging old bores around the Coonamble area were to be carried out. Steve said that funding can be carried over to next year due to summer conditions and floods etc that have delayed the work schedule of Cap & Pipe projects. Steve said that if the ABWUA felt the need for increased funding for the last part of GABSI 3, there was a good opportunity to approach the Minister. Steve spoke of the advantages of using a superintendent on pipe schemes to better manage administration and problems between contractors and landholders. Private bores need to set up a legal agreement between all users. Some changes to pipe-works on bore-heads necessary to provide for installation of monitoring equipment. Changes to the Water Management Act, - full implications for Bore Trusts are not known at this time.

ROSS BEASLEY: Ross presented a display of the Whole of Basin Monitoring Program and talked at length about the type of equipment that will be used and how the data could be collected. An urgent need for funding this program is needed.

ANNE KENNEDY: Anne discussed her research on Coal Seam Gas Mining and the possible hazards that could occur from the chemicals and procedures used. The problems for the GAB and groundwater tanks could be catastrophic. She believes that a halt should be called on coal seam gas drilling until it is proven that there will be no harm to our environment and the GAB.

Barbara Deans suggested that Mining Companies should be made responsible with obligations to provide funding for future generations so that similar cases, like the James Hardie cases cannot occur again.

Robert Harris and Anne Kennedy will be attending a meeting in Inverell on the 10th May 2011.

COUNCILLOR BEVAN O'REGAN: Addressed our meeting informing us of a meeting that he attended in Brisbane (which had enormous fees to attend) Bevan stated that the implications of coal seam gas mining, was inconclusive and that there were no guarantees for the safety of our environment. Bevan will give us a copy of his report when it is available.

Letters needed:

1. Jeff Austin – concerning additional funding after GABSI 3, water extraction from GAB for mining and basin monitoring.
2. Office of Water Legal people re Bore Trust Management

VENUE FOR NEXT YEARS AGM: Secretary asked those present for suggestions on a venue for next year's AGM and spoke about two other venues. It was agreed by all those present that the Crossing Theatre was a great place to hold meetings and wished it to be there again next year.
